

Park 6 Bike Storage Unit

ITEM: 64019
Page 1 of 1

PARTS LIST

1. End Bars - 2
2. Top and Bottom Tubes with Holes - 2
3. Stabilizing Bar no Holes - 2
4. Separating Tubes - 9
5. Plastic End Caps - 4
6. Washers - 8
7. Bolts - 8

ASSEMBLY INSTRUCTIONS

1. Lay both #2 poles on the ground.
2. Insert the #4 poles into the holes of the #2 poles while they remain on the ground.
3. Applying gentle pressure to keep the poles in place stand this section up while leaving the bottom tube on the ground.
4. Bolt one end bar #1 to the side of the middle section (see diagram 1).
5. Repeat and bolt second end bar #1 to back.
6. Line up both stabilizing bars #3 at front and back of base of rack (see diagram 1) and bolt on using bolts #7 and washers #6 provided.
7. Insert plastic end caps #5 into top and bottom of the end bars #1.
8. Tighten all bolts until rack is snug and there is no excessive movement (diagram 2).
9. Store 3 bikes on either side of the rack for a total of 6 bikes as shown in diagram 3.
