NOTICE

Before you begin installation, read all instructions thoroughly.

Proper tools will improve the quality of installation and reduce the time required.

To help prevent damage to the product or vehicle, refer to the specified torque specifications when securing hardware during the installation process.

Maintenance

To protect the product, wax after installing. Regular waxing is recommended to add a protective layer over the finish. Do not use any type of polish or wax that may contain abrasives that could damage the finish.

For polished, gloss and other smooth finishes, polish may be used to clear small scratches and scuffs on the finish.

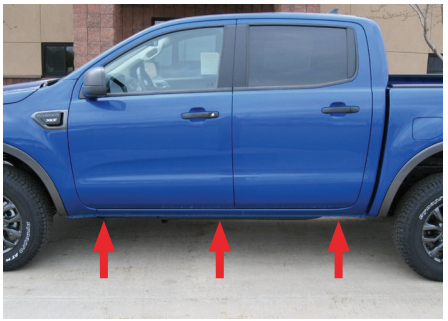

Mild automotive detergent may be used to clean the product. Do not use dish detergent, abrasive cleaners, abrasive pads, wire brushes or other similar products that may damage the finish.

Step 1

Starting on the driver side, locate the three mounting locations underneath the vehicle and remove the factory plastic thread plugs.

Step 2

Using two M10 bolts, lock washers and flat washers, install the front mounting bracket.

Snug the hardware,
but do not fully tighten.

Repeat this process for the middle and rear mounting locations.

Step 3

Repeat step 2 for the front, middle and rear mounting locations on the passenger side.

NOTICE

To complete the installation,
refer to the manual included with
your running boards / side steps.
